Consequently, English and French share a very long list of cognate words. Cognates are words that are similar in spelling and in meaning in two languages. If your native language is English, you have already enough vocabulary to begin speaking French fluently. If you are an English speaker, 30% to 35% of the words you are currently using can also be used in French. Being able to recognize the French cognates in English will help strengthen your interests in speaking French, increase your vocabulary in your own English, enhance your writing and reading skills, and build your confidence. However, you must be aware of these words and learn their pronunciation.
